

Micro Recorder - Mr.1

No.1 Water-resistant Recording Unit

Mr.1 is the first mini and high picture quality recorder with water-resistance, which allows it to be used in the poorest weather conditions. It is a complete covert and portable recording device for capturing audio, video and snapshots. Users can easily play back the recorded video and snapshots on a built-in 2.5" TFT LCD monitor and download data through the 4GB SD card or USB port.

Mr. 1 is outfitted with two strong IP65 water-resistant M8 screw locks that function as A/V inputs and outputs. This way, the camera will even remain connected to Mr. 1 when pulled hard in active situations. It is therefore designed for rough and rugged applications. The M8 screw lock also functions as a hot plug, and powers the camera.

Mr. 1 uses a rechargeable and removable Li-Ion battery, which gives you a minimum of 2 hours of video recording time. With its small size, you can hide this tiny high end recorder anywhere any time you want to. Its powerful functions and compact design make it ideal for body-wear covert surveillance and a variety of mobile applications.

Application

- Car racing
- Diving
- Investigations
- Soldier
- Motorcycle
- Mountain climbing
- Rock climbing
- Police
- Taxi
- Sky diving
- Water skiing

Specifications

Video Input	1 CH NTSC / PAL
Video Output	1 CH NTSC / PAL
Audio	1 Input / 1 Output
Video Display	Real Time
Recording Mode	Continuous
Video Resolution	640 x 480 or 640 x 240
Frame Rate	5 /10 /15 /20 /25 /30 fps
Compression	MPEG-4
Net Weight	168g (without battery)
Pre Alarm	Pre Alarm: 30 sec. or 60 sec.
Post Alarm	Post Alarm: 10, 20, 30, 40,..., 120 sec.
Event Trigger	Motion / Video loss
USB Port	1 mini USB port 2.0
Storage Media	SD card (up to 4GB)
Remote Control	IR Remote Control
Operating Temp.	-10 ~ +70 °C
Dimension (mm)	101 (L) x 62 (W) x 26 (H)
On-Board Power Output	5V Camera Power Source (12V optional)
Power	Li-Ion (3.7V @ 1400 mAh / 2400 mAh) battery, external DC jack (5.5V input)

FEATURES

- ✔ Hi-Picture Quality
- ✔ Water resistance
- ✔ Easy operation
- ✔ Compact size: light and small
- ✔ Rugged
- ✔ Hi capacity battery
- ✔ Supports 4GB SD card
- ✔ Long recording hours
- ✔ 2 recording modes: VGA & HVGA
- ✔ Motion detection
- ✔ Pre/Post alarm
- ✔ PCBA only available
- ✔ Customized available
